*Thank you for your involvement in our Norbury Theatre event last Friday evening. I have received numerous complimentary comments about the very cheerful and witty entertaining style.*

*After the Friday performance we were very much looking forward to our Sunday evening dinner event. We were of course delighted when you appeared in even greater numbers and having obviously visited outrageous tailors since the Friday evening. Our German guests were very impressed and enjoyed both events; but I think, especially the Sunday "party" atmosphere, which you helped so much to create.*

*Please pass on our thanks and appreciation to all who took part over the weekend. Our German guests have said that your performance will be remembered by them for a long time to come.*

*Best Regards  
And thank you once again*
